Certificate in Graphic Design and Communication program is intended for students who would like to attend an introductory course in the topic.
This program will prepare the students in the basics of graphic design and communication.

Students attending the course are expected to start working in the profession at entry levels..

The students will be taught by highly experienced and qualified faculty members. They will interact with well-known professionals in the field, through guest lectures along with consultations.

Potential Students:

- Candidates who have completed a Bachelor Degree in any discipline
- Candidates with a Fine Arts background
- Professionals in the printing, advertising, media and IT seeking fundamental training in visual design
- Amateur designers who intend to take graphic design as a profession
- Creative graduates who intend to be an entrepreneur in graphic design

The eligibility of candidate will be evaluated on the basis of a written statement of intent and an interview.

*Admission requirements may be relaxed for deserving candidates who are able to provide evidence of creative abilities
